

050417 A "third way" to prison for the Obama Deception
by Dustin Houghton

Its amusing to some degree to watch as my generation takes up the mantle of the forgetful idiots the Industry media enemy fake news would love to make us out to be. Member though, these few crimes against the U.S.A. that were historically perpetrated by our 44th president as half white man Barry Santaro, aka Obama; armed Mexico National drug cartels and ISIS rebels, When questioned in 2012 about project Fast and Furious Obama lied claiming the program had begun under the previous administration, \$46,378,040 went to criminal foreign non citizens in nearly 24,000 tax returns from the same address in Atlanta, Ga, he also spent our tax dollars to re-settle non citizen criminal foreign nationals inside of the U.S.A., conservative groups and republicans where unlawfully targeted for audits by the IRS, he expanded George w. Bush's unconstitutional faith-based programs like the Patriot Act, warrant-less wiretapping, and the indefinite detention of U.S.A. citizens without filing charges. Obama had four U.S.A. citizens murdered without a trial, ordered private business to fire employees, embezzled money from the retirements of police and teachers, and fired an inspector general for discovering one of his friend's embezzlement schemes. Obama lied to us about keeping our health insurance plans saying "No matter how we reform health care, we will keep this promise to the American people... If you like your health care plan, you'll be able to keep your health care plan, period. No one will take it away, no matter what." but over 7 million of us lost our health care plans, without approval from Congress Obama used his so called affordable health care act to give the IRS additional powers and added 20,000 pages to cover up what the bill was before it passed. Former president of the U.S.A. Obama aka the first muslim president, by sharply penalizing full-time employment in favor of part-time employment the affordable care act has destroyed the foundation of the full time work week that is the backbone of the American middle class, because; the law creates an incentive for employers to keep employees' work hours below 30 hours a week. Unions that supported Obama care, however; were given exemptions from the crippling regulations of the affordable care act. The NSA review ran by the national security director James Clapper was said by Obama to be an independent investigation of national security agency surveillance, even though; James Clapper had falsely testified to Congress that the NSA collected absolutely no information on U.S.A. citizens. Obama's presidential administration has been cited by nine states attorney generals listing 21 illegal acts committed. Obama accused a fox news reporter of aiding and abetting in the investigation of government leaks, Eric Holder, Obama's Attorney General, was tasked with investigating himself when he lied to congress about "wire tapping" the reporter's emails despite having signed the warrant to do so; in order to cover up the embarrassingly disgusting treatment of this reporter. Obama ignored the constitution to appoint un-vetted people to various positions, he made recess appointments while congress was in session, he forced 2,200 privately owned auto dealerships to close, violated campaign finance laws he claimed to support and was fined \$375,000 by the federal election commission in 2012. Obama accepted foreign campaign contributions, used "contras" style off the books funding for military interventions, auctioned the ambassadorship of the Netherlands, gave so called green energy money from taxpayers to the hands of his campaign contributors, only let contractors showing their political contribution history apply for government contracts, refused to prosecute more than 1,000 IRS employees for embezzlement, used tax payer money to pay federal employees to organize protests, tried to put an end to the family farm, and actually asked a Jewish singing group to remove a video from you-tube before the 2012 election. Obama famously tried to take George Zimmerman's privately owned firearm in direct conflict with Zimmerman's 2nd and 5th amendments of the constitution and the double jeopardy clause, not unlike when Obama tried to seize a hotel because some of its customers were drug users. Your former President of the united states of America supported the installation of cameras on private property without a warrant, put a Mr. Nakoula Basseley in jail for making an anti-Muslim video,

proposed military intervention in Syria, approved giving 20 F-16 fighter jets to Egypt when they had a Sharia dictator, and continued giving aid to Egypt after the coup. The man threatened Internet service providers with contempt if they did not comply and install surveillance software on their servers, had the secret service visit law abiding citizens over tweets about Obama's shit ass-ed policies. Obama and Hillary together lied about Benghazi repeatedly and by all these things together and much more Obama's legacy had pointed to prison from the beginning.
