The enemy put their guard down, praise god in Jesus name for Donald J. Trump for taking the shot. He can pave the way but only we the people can go down the road of greatness. Our country was taken over by communist revolutionaries who followed rules to help prevent enacting actual revolution and rather took control from within by the use of black mail. The thing about the united states is that our separations of power have effectively prevented the total 3rd party black mail control or the private 4th branch of government from asserting any kind of permanent control on the legitimate branches of government. People in positions of power are compromised most easily by some form of honey pot, now this is the part where things get really ugly. In the not so distant past this nations Christian leaning prevented homosexuality from social acceptability in all but select groups and meant that it could be used effectively as blackmail. Nowadays, however; Christians have hind end in the air tolerance to such the degree of the blasphemous satanic marriages that are too commonplace in today's alleged churches leaving the powers leveraging for control via blackmail fewer choices. Pedophilia is the tool of choice for the powers of consolidation against the rule of the people, no horror is inconceivable in this day of Lucifer the deceiver and his following grows to face down the pure love of American Liberty and God's inflexible inevitable judgment. Sex with children is the very absolute bottom of the dark moist nature that is evil, those oculists in search of black magics and those satanists open to channel demons and divine sciences are the foremost of those who sin against innocents. Vigilance is more than necessary, public settings are where the black mailers have the most opportunity to catch their black mailee off guard; drugging drinks would be one of the more effective ways of incapacitating the black mailee. Targets of black mail control are kidnapped and compromised in child pornography which is promptly shown to the black mailee to assert the leverage of control, mind you; if the target is willing to have sex with, torture, and murder infants and toddlers drugging and kidnapping apparently wouldn't be necessary. Donald J. Trump has set the scales of justice back up against the leverage of control from the 4th branch shadow government black mailers, the reactionary among them having seen the end game results in the capitol punishment of treason for what they had done to gain their power is traitorous to both god and nation. Since November 8, 2016 these compromised people of the legitimate branches of government, in Hollywood, and any other affected group have scrambled to cover up their tracks using the largest political witch hunt in united states of America history. The concepts that corruption is synonymous with consolidation and that the extremes of either communism or capitalism is eventual consolidation, or oligarchy, would obviously point at the wealthy as the source of corrupt black mail leverage 3rd party 4th branch shadow government. Millennials are the generation of Occupy and the legions of anonymous, we are not stupid yet we are told like we are that; "capitalism has caused us to be have nots! We must throw down the systems of freedom and accept socialism because capitalism has failed!". However many times they say it no more evidence rises to say anything but opposite of those proclamations; it is because of the socialization of our economy by globalization that our system has seemed to fail, it is because of 50 years of communism asserting 4th branch leverage on our legitimate government, it is because of we the people's failure to member our own history, and it is because we did nothing as they became a global oligarchy by monopoly. I cannot throw shit at the president for his previous success and so called wealth, because; by comparison to the globalist oligarchs Donald J. Trump is not rich at all. Were Trump impeachable or in any form of real jeopardy he would not currently be the president of the united states of America, he would never have been inaugurated because; Obama would have had him arrested. Trump has a situation though when big names begin to fall to pedophile gate, Hollywood and television are some of the biggest expenses of the oligarchs and conceivably full of compromised black mailees all of whom work collaboratively to cover up the scale of child sex slavery rackets needed to support such widespread black mailing. 9-11 was a literal

cover up of this abuse of power, as investigations were about to uncover the sex rings in the years previous and the Mk-ultra offshoot project MONARCH was uncovered peoples attention perked up to the corruption. Then we were attacked by Saudi Arabia on 9-11-2003 and the topic was all but lost in the noise of inside jobs and political nightmares realized. Hunter s. Thompson was murdered preparing a book on the pedophile politicians, supreme court justice Anton Scalea was murdered in anticipation of this kind of resistance Hillary Clinton was supposed to finalize the cover up by arresting alternative sources of information and by removing freedom of press from gorilla journalists. Many of our fellow citizens have been killed by these pedophiles and judging from the resistance to Trump, the numbers of people involved in one way or another seems staggering. I have wondered where the levers of power are among the globalists, now I see there are none among them having compromised themselves to each other with the blood of little boys and girls all of them being black mailees means that the only leverage of power among them is one of mutual destruction. The outside force of the executive branch against the black mail scheme of the others has the potential now to purge our nation of this corruption.
